legato

*)

6

p, like a wave < poco accel.

*) From here the barlines are omitted when playing the "waves". Barlines make no sense because the tempo changes and the waves therefore move more or less independently from the other instruments and existing meter. However, use the extra staves for the other instruments to know where the waves approximately start and end. One wave lasts for about 10 sextuplets and should be played in one breath.
